

## **Invitation to Gather for the Future of Anthroposophy in the Greater Bay Area\***

June 14 (eve) and June 15 (full day) (and we mean full)

The Western Regional Council of the Anthroposophical Society in the US will be meeting in San Francisco and is collaborating with the Greater Bay Group to support a rejuvenating vessel for the work in the region. You are invited to be a part of it.

### **The Quest and Questions we will explore together**

- Might we find a new coherence that can inspire and reinvigorate our individual as well as organizational anthroposophical efforts across the Greater Bay Area?
- Can a collaborative of anthroposophists in the Greater Bay Area support each of our initiatives more effectively?
- Can we meet as peers and practitioners in service to spirit and community to further the practical applications of spiritual science in service?
- What new forms can emerge from an immersion into shared experiences across disciplines, roles, interests, and initiatives?
- Is there a rhythm that could weave together the East, West, North and South Bay's activities into a self-sustaining vessel that will support the future of anthroposophical endeavors?

Through the time, we will tend to the Greater Bay Area's particular gift to the fields of social and spiritual scientific research. The Bay Area's focus on freedom, entrepreneurship, and creativity, will lead us into a study of an Anthroposophy of the Will.

This gathering is a new beginning. It will not be the last of its kind, but it is part of a transformational process through which we can all take responsibility for the work of Anthroposophy in community, the Anthroposophical Society and its future in the Greater Bay Area.

**When: The Evening of June 14, 2024 and Throughout the day of June 15**
